

Solid Basis

EHEIM
eXperience

Reliable external filter including
accessories and filter media

Made in Germany

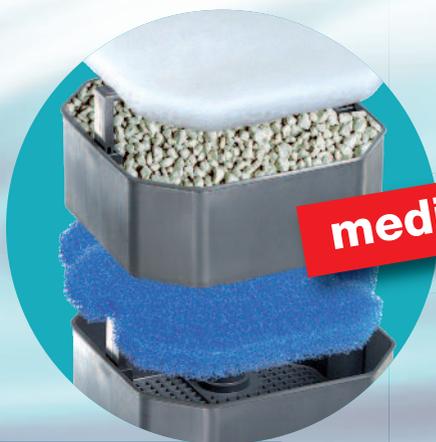

Reliable with extremely long service life

The reliable external filter from EHEIM

With EHEIM eXperience you have the simple and basic benefits of our top external filter generation

With its predecessor, the professional, EHEIM introduced the first square base shape. Benefits: Space saving (because the filter fits into corners), high stability and large filter volume.

This sturdy basic filter also offers you special features: for example a complete hose adaptor kit with integrated shut-off taps, individually removable filter baskets with inset handles, very low energy consumption, extremely quiet running due to ceramic components and much more. eXperience comes completely equipped – including accessories and filter media. You can start immediately

EHEIM eXperience 250

Made in Germany

EHEIM eXperience

EHEIM eXperience 250 T

External filter generation with a square base shape.

- Excellent, reliable external filter for aquariums from 150-350 litres
- Square base shape for large filter volume and high stability
- hose adapter with integrated shut-off taps, hose safety cut-off and locking lever as complete unit
- Removable filter media baskets with foldaway handles for easy handling and convenient cleaning
- Extremely quiet running due to ceramic axle and sleeve
- **Equipment:** 1 x fine filter pad, 2 x Coarse filter pad (at eXperience 150)/3 x Coarse filter pad (at eXperience 250/250T/350), filter baskets and EHEIM SUBSTRAT
- **Accessories (included):** Complete installation kits for both the pressure and suction, EHEIM quality hose, EHEIM special grease.

Also available as a **thermofilter** with integrated heater (**eXperience 250T**).

The powerful and easy to use EHEIM external thermofilters are equipped with high quality heating elements.

So you can simply and easily heat and filter your aquarium at the same time.

Thermofilters are only suitable for freshwater aquariums.

- Using the button you can precisely set the required temperature
