**New internal filter solutions –
versatile and efficient**
Made in Germany

EHEIM

aquaball

The flexible modular internal filter

- 1 NEW: including power diffuser for strong oxygen enrichment and spray bar for natural surface movement.
- Powerful, fully pivoted and flow rate adjustable pump head.
- New, safe and compact filter holder.
- 2 Filter media box with foam filter pad (aquaball 60/130/180); options include fine filter pads, EHEIM AKTIV or SUBSTRATpro.
- 3 All-round priming for uniform low-flow water inlet.
- NEW: "Easy Click" locking system for simple connection and detachment of the filter baskets.

Ideal areas of application:

- Tanks with light to medium load (small to medium-sized fish, size 2-6 cm, such as neon tetra, guppy (million fish), low fish stock)
 - Invertebrates (shrimps)
 - Breeding tanks
- For use in fresh water and marine water

Competence and innovation – the new internal filter concepts of EHEIM

Adjustable flow rate, excellent filter properties, high energy efficiency

Flow variants

with power diffuser

with spray bar

EHEIM

biopower

The first internal filter in external canister filter technology

Multiple filtering as with an EHEIM external canister filter.

Modular filter design with closed filter baskets filled with highly efficient EHEIM SUBSTRATpro filter material and an inlet strainer equipped with an EHEIM filter cartridge for mechanical-biological pre-filtration.

- 1 NEW: including power diffuser for strong oxygen enrichment and spray bar for natural surface movement.
- Powerful, fully pivoted and flow rate adjustable pump head.
- New, safe and compact filter holder.
- Pump head holding fixture with foam filter pad and lattice screen.
- 2 NEW: "Easy Click" locking system for simple connection and detachment of the filter baskets.
- 3 Closed filter basket filled with original high quality EHEIM SUBSTRATpro filter material.
- 4 Inlet strainer with EHEIM filter cartridge.

Ideal areas of application:

- Tanks with medium to higher load (medium-sized to larger fish, size > 5 cm, such as Lake Malawi cichlids, bigger fish stock)

For use in fresh water and marine water

Are you planning to go on holiday?
Can't get anyone to feed your fish while you are away?
 EHEIM fish feeders will solve your problem.

3581

- easy to programme
- drum for food flakes
- contents 100 ml
- auto-ventilation to keep food dry
- including batteries

TIP

3582

- easy to programme
- 2 separate feeding chambers for granulate, sticks, flakes
- contents 2 x 80 ml = 160 ml
- auto-ventilation to keep food dry
- large, easy to read display
- including batteries
